

## Liftlog™ Options

	LiftLog™ (post- Sept 2011)	LiftLog™XL (released July 2011)
<b>MAIN FEATURES</b>		
Calculate remaining design life (DWP) according to latest Australian standards (eg. AS2550.1-2011)	Yes	Yes
Calculate according to an alternative standard (e.g. ISO) or customized specification	Yes	Yes
Monitor remaining DWP in real-time	No	Yes
Receive real-time alerts of damaging crane operations	No	Yes
Retain raw usage data indefinitely	Yes (by downloading data)	Yes
Record data from dual hoist cranes with single logger	No	Yes
Record responsible operator against all logged motions and alerts	Yes (AccessPack required)	Yes (AccessPack required)
Perform load limiting	Yes	Yes
<b>DATA COLLECTION</b>		
Monitor and record all hoisting motions	Yes	Yes
Monitor cross and long travel motions	Yes	Yes
Monitor limits and other sensors	No	Yes
Operational events stored onboard	10,000,000	10,000,000
Raw data available as a simple text file	Yes	Yes
Custom reports available	Yes	Yes
<b>TECHNICAL SPECIFICATIONS</b>		
Operating voltage range	24-240 VAC	48-240 VAC
Bluetooth connectivity	Yes	Yes
3G connectivity	No	Yes (or WiFi)
WiFi connectivity	No	Yes (or 3G)
Output provided to drive a digital load display	Yes	Yes
Compatible with OEM crane control products	Yes	Yes
Australian designed and manufactured	Yes	Yes
Australian manufacturer extended hours support available	Yes	Yes
